EDUCATION

MIT ADT University — *Bachelor of Technology in Computer Science & Engineering*

2025 – 2029

Pune, India | **CGPA:** 8.83 / 10.0

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3

Frameworks & Tools: React.js, Next.js, Django, Node.js, Supabase, Git, AWS

Core Concepts: Data Structures & Algorithms (DSA), Full Stack Development, Frontend Architecture, UI/UX Design, Web Development

ACHIEVEMENTS & COMPETITIONS

- **Finalist, IdeaSpark 2026 (Round 2)** – Shortlisted for the final round in the Project-Based Learning (PBL) competitive track among SY CSE cohorts.
- **Selected Presenter, Design Thinking Expo 2026** – Selected to showcase innovative engineering problem-solving prototypes in the FY CSE Expo.

PROJECTS

DSA Visualizer | *React.js, Next.js, TypeScript, JavaScript, CSS*

[GitHub](#)

- Engineered a dynamic algorithmic visualization platform rendering step-by-step graphical execution across 10+ core DSA concepts, including Graph traversals (BFS/DFS), Binary Trees, and Sorting.
- Optimized state rendering latency by ~40% across complex visual trees by leveraging Next.js server-side features and modular React component design.
- Designed a responsive, low-latency UI architecture featuring real-time execution controls and interactive speed adjustments for algorithmic steps.

ATS Resume Analyzer | *Django, Python, Supabase, HTML, CSS*

[GitHub](#)

- Architected a full-stack automated resume parser and evaluation engine designed to benchmark candidate documents against standard ATS compliance algorithms.
- Integrated a secure Supabase backend to streamline data pipeline workflows, processing user resume submissions and retrieving feedback in under 1.5 seconds.
- Formulated rule-based natural language processing routines to score resume keyword density and formatting layout, generating actionable visual feedback reports.

Personal Developer Portfolio | *Next.js, React.js, JavaScript, Modern CSS*

[GitHub](#)

- Developed and deployed a full-stack responsive portfolio platform to showcase engineering projects, certifications, and technical capabilities.
- Accelerated page load speed and SEO performance—achieving a 95+ Lighthouse score—by implementing Next.js Server-Side Rendering (SSR) and optimized asset pipelines.

CERTIFICATIONS & TRAINING

- **Gemini Certified University Student** – Google
- **AWS Cloud Practitioner Training** – Amazon Web Services (AWS)
- **Python Essentials 1 & 2** – Cisco Networking Academy
- **Python / Programming Certification** – Spoken Tutorial, IIT Bombay
- **AI for Beginners** – HP LIFE
